

Checking

Check the operation in the relevant operation mode according to the chart below. The following are representative images.

Entry	Power OFF	Warm-up (Approx.10 sec.)	Outside of detection area	Entry into Microwave area (pre-notification)	Entry into Microwave area	Entry into 2nd row	Entry into 1st row
(Image)							
Operation indicator	None	Green glimmering	Green	Orange blinking	Orange	Red	Red blinking

Microwave area (pre-notification)
(Motion detection)

Microwave area
(Motion detection)

AIR area
(Motion/Presence detection)

Other indicators

Status	Operation indicator color
Stand-by (Installation mode)	Yellow
Connecting to the app	Slow Green & Blue blinking
Signal saturation	Slow Green blinking
Link error	Once Green blinking
Device error	Fast Green blinking

If the sensor is not functioning well, see the
Troubleshooting section in the web manual.

Web manual

Inform the building owner/operator of the following items

- WARNING**

 - Do not wash the sensor with water.
 - Do not disassemble, rebuild, or repair the sensor yourself as it may result in electric shock.
- CAUTION**

 - Do not paint the detection window.
- NOTE**

 - Always keep the detection window clean. If dirty, wipe it with a damp cloth. Do not use any cleaner/solvent.
 - When the operation indicator blinks Green, contact your installer or service engineer.
 - Always contact your installer or service engineer when changing the settings.
 - When turning the power ON, always walk-test the detection area to ensure the proper operation.
 - Do not place any objects that move or emit light in the detection area. (e.g. plants, illuminations, etc.)

CE OPTEX hereby declares that the radio equipment type OAM-EXPLORER series complies with Directive 2014/53/EU.

OAM-EXPLORER

Wall mounting

Ceiling mounting

5926953 MAY 2022

Manufacturer's statement

- This product is a non-contact switch intended for mounting on a wall/ceiling for use on an industrial door. Do not use for any other applications.
- When setting the sensor detection area, ensure there is no traffic around the installation site.
- Before turning the power ON, check the wiring to prevent damage or malfunction of any equipment connected to the product.
- Only use the product as specified in the operation manual provided.
- Be sure to install and adjust the sensor in accordance with the local laws and standards of the country in which the product is being installed.
- Before leaving the installation site make sure that the product is operating properly and instruct the building owner/operator on the proper operation of the door and the product.
- The product settings can only be changed by an installer or service engineer. When changed, the amended settings and date will be registered in the maintenance logbook that accompanies the door.

WARNING Failure to follow the instructions that accompany this indication and improper handling may result in serious injury or death.

CAUTION Failure to follow the instructions that accompany this indication and improper handling may result in injury and/or damage to property.

NOTE Pay special attention to sections with this symbol.

The following conditions may cause issues with the sensor operation.

Specifications

Model	: OAM-EXPLORER	Operating temperature	: -35 to +55 °C (-31 to 131 °F)
Color	: Black	Operating humidity	: < 80 %
Mounting height	: 2.0 m to 6.0 m (6'7" to 19'8") (*1)	Communication method	: Bluetooth LE
Transmitter frequency	: 24.2 GHz	Activation output	: Form A relay 50 V 0.3 A Max. (Resistance load)
Transmitter radiated power	: < 12.7 dBm	Supplemental safety output	: Form B relay 50 V 0.3 A Max. (Resistance load)
Detection area	: See Detection area	AUX output (*3)	: Form A relay 50 V 0.3 A Max. (Resistance load)
Detection method	: Microwave Doppler effect Active infrared reflection (*2)	Protection degree	: IP65
Depth angle adjustment	: Microwave area 0 to +50° AIR area -15 to +40°	Weight	: 600 g (21.2 oz)
Power supply	: 12 to 24 VAC ±10 % (50/60 Hz) 12 to 30 DVC ±10 %	Accessories	: 1 Operation manual 2 Mounting screws 1 Mounting template 1 Cable 10 m (32'10")
Power consumption	: < 2.5 W (< 3.5 VA at AC)		
Operation indicator	: See Checking		
Output hold time	: Approx. 0.5 sec. (Selectable via app)		
Response time	: < 0.3 sec. (Selectable via app)		

NOTE The specifications given herein are subject to change without prior notice due to improvements.

* 1: A person can be detected at an installation height up to 4 m (13' 1").

* 2: Active infrared reflection has a presence detection function.

* 3: The sensor can send an output to other devices such as a flashing light and alert sound.

Diagram illustrating the components and dimensions of the microwave sensor assembly:

- (1) Operation indicator
- (2) AIR fix screw
- (3) Detection window (AIR)
- (4) Microwave fix screw
- (5) Detection window (MW)
- (6) Mounting bracket
- (7) Connector

Dimensions:

- 207(8 1/8")
- Mounting holes: $\phi 54$ (2 1/8"), $\phi 12$ (1/2"), $\phi 5$ (3/16")

[mm(inch)]

Wall mounting

Diagram showing the wall mounting dimensions for the device. The mounting plate is shown attached to a wall. The dimensions are:

- Height from wall to top of mounting plate: 168 (6 5/8") *
- Height from wall to bottom of mounting plate: 157.5 (6 3/16")
- Width of mounting plate: 118 (4 5/8")

Ceiling mounting

Diagram showing the ceiling mounting dimensions for the device. The mounting plate is shown attached to a ceiling. The dimensions are:

- Height from ceiling to top of mounting plate: 107.5 (4 1/4")
- Width of mounting plate: 120 (4 3/4")
- Distance from ceiling to center of mounting plate: 13 (1/2") *

Diagram of the 8-pin connector wiring for the 12VDC power supply:

- 1 White: Power supply
- 2 Brown: Activation output
- 3 Green: Activation output
- 4 Yellow: Activation output
- 5 Pink: Supplemental safety output
- 6 Blue: Supplemental safety output
- 7 Red: Supplemental safety output
- 8 Black: AUX output

Do not operate the sensor using the default password. If you do, unspecified users may change the settings and the safety of the sensor may not be secured.

Diagram illustrating the installation of the mounting bracket to the wall and ceiling. The bracket is secured with screws into the wall and ceiling. A callout shows a close-up of the bracket's mounting holes.
